(PART TWO)

CONTRACT

BB-475

The services and equipment being procured by this Contract No. BB-475 are in furtherance of the CORONA

Program(s), the nature of which cannot be publicly disclosed for security reasons. The Contracting Officer therefore determines that this procurement must be accomplished by negotiations pursuant to the authority of Section 3(a) of PL 81-110 and Class Determination and Finding, OXC 2122, signed by the DDCI on 15 October 1961.

Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all covert expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress (formerly 10(b) - see 85-507 dated 7/7/58) for each contract.

The following comments describe the procurement hereby effected, the terms and provisions generally of this contract/amendment, and a resume of major issues negotiated:

1. Final close out of Contract No. BB 475 - a call type contract - with Itek under the CORONA PROGRAM.

2. No patents have been filed nor does the contractor intend to file under this contract. In accordance with Audit Report OSA-0427-66 #A-11-66 dated 25 January 1966 this contract may be closed out and the amounts cited may be liquidated.

3. A copy of the report was forwarded to BFB/OSA.
